inspired
Hand painted
pure silk scarves!*

Gaby's Art Escape

The Earth, Landscape and Buildings

New Zealand serves as a scientific inspiration for the scarves, highlighting the beauty of the natural world, the geology, astronomy and history of the "Land of the Long White Cloud".

The flowers and Ferns

The collections highlight the native blooms and the ferns, their unique adaptations to New Zealand's varied climates, featuring vibrant colours in both abstract and landscape forms.

Save the Planet: Birds, Marine life and Merino

The Birds and Marine life collections draw inspiration from the unique New Zealand's habitants, while the Merino one, pays tribute to the gentle animals, with simple and peaceful lives.
